# The Zombie Rampage 2

Zombie's Revenge!!!!!!

By William ,Caden,Mrs Hudson and a little help from Meda and Cloe

## Chapter -1 The Forgotten Student

Several days after the cleanup of Sandhill school, everybody came back safely. All of the children were still nervous about the mysterious situation and gossiped about it in the morning break time. Mrs Crummack was back to her busy days and was kneeling down to have a look in her special cupboard when she heard a strange popping sound coming from somewhere inside. Bravely, Mrs Crummack proceeded to investigate and saw something peeking out from behind the box of fidgets. It was very dark so it took a long time for her eyes to adjust.

## Chapter 2 The Discovery

Mrs Crummack stepped further into the cupboard and realised there was a child, right at the back, crouching with a poppet. Mrs Crummack found that it was Brooke and she saw tears falling down her face. Mrs Crummack kneeled down and began to talk calmly to Brooke because she wanted to help her. Suddenly, the scared child, struck at her. Quickly, Mrs Crummack tried to restrain her and called out for help just as Mrs Perceval was walking past the open classroom door. “What on earth is going on in there. What is all that racket!” cried Mrs Perceval as she opened the classroom door.

## Chapter 3- The Uprising

Mrs Perceval cautiously enters the room just as someone screamed out in pain and witnesses a horrific attack. As Mrs Crummack was holding her face in agony, Mrs Perceval made a grab for Brooke but unfortunately she slipped out of the hold and got away. Brooke, in her vicious state, stormed into Mrs Burgan's classroom, which was full of children and lashed out at Ellie and Rezana while making her escape into the intervention room, which was fortunately empty at the time. With no distractions, the demented Brooke charged out into the library straight into the disabled toilet. While she was looking sassily in the mirror, she didn't notice Mrs Bray, who quickly locked the door. Meanwhile, the recently infected in KS2 commenced a rampage of their own.

## Chapter 4- The War

The whole of KS2 quickly became utter mayhem. The children were banging against the doors and the window panels while others had their disgusting purple faces squished against the glass as they tried getting in the room. Mr Lowry hastily made a critical call to Mr Snaithe requesting his urgent help, whilst Mrs Perceval tried her best to distract the frightened children with a writing task.

Down in the disabled toilet, Brooke was trying her best to get out of the locked toilet but her banging and screaming was not heard as the noise from the top end of school was so loud.

## Chapter 5- The Saviours

In response to the phone call from Mr Lowry, Mr Snaithe quickly secured his classroom by locking the door. Moments later, he sped to the medical cabinet for the antidote, which had been left there for protection by Mr Brookes. Mr Snaithe acquired the antidote, frantically ran to the school's main water supply and emptied the antidote into it. He then immediately got out his phone and made a phone call to Mr Lowry instructing him to set a small fire with anything he could find in order to set off the sprinklers. Mr Lowry looked everywhere to find something but nothing came to him. Out of nowhere, Mrs Perceval explained to the class "Hand in your pieces of paper so Mr Lowry and I can use them to set a fire and trigger the sprinkler system."

## Chapter 6-The final ending

Once Mrs Perceval got the paper, she handed it to Mr Lowry, who quickly ran to his stockroom cupboard to get the lighter that he used to light the candles on Mrs Elvidge's birthday cake. When he had got it, he began to light a small fire. Instantly, the sprinklers sprung into action. The entire school was sprayed with the antidote making everyone safe and protected again. All thanks to Mr Lowry and Mr Sniths quick thinking **and Mrs Perceval's commanding tone, which made everyone jump into action.** Sandhill was safe again!

**The End!!**  
(Finally it is over!)
